EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Derek Forinash on 5/25/06

The application has been amended as follows:

1. In claim 1 line 14: "corresponding to a receptacle for scooping refuse from said receptacle upon rotation" has been amended to read, - -corresponding to one of said receptacles for scooping refuse from its respective receptacle upon rotation- -.
2. Claims 19-21 have been cancelled.

The following is an examiner's statement of reasons for allowance:

While the prior art teaches multi-compartment refuse collection systems mounted to a vehicle, a refuse collection system for mounting to a vehicle, having multiple compartments, as described in the language of claim 1 that further includes the unique feature of a packer having a unitary upper blade spanning substantially the width of the trough, and a plurality of lower blades, independently hinged thereto, as detailed in the language of claim 1, is not taught or fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
